REQUIRED INTERDISCIPLINARY STUDIES CLASSES

- **IDS 2111 – Introduction to Interdisciplinary Studies** – This one-hour online course covers the history of interdisciplinary studies in higher education, the fundamentals of interdisciplinary research, and real-world applications of interdisciplinary approaches and degrees. Students will explore, plan, and connect their emphasis areas of study to career fields they would like to pursue.
- **IDS 4111 – BSIS Professional Seminar** – This one-hour online course should be taken during the semester students plan to graduate and is intended to prepare students for the job market and/or further study in graduate school. The objectives of the course are to develop career planning skills and to explore and identify occupations, graduate schools, or professional programs consistent with one's skills, abilities, values, and interests.
