#### **Student Annual Evaluation Handbook**

Consistent with the American Psychological Association, all students in Mississippi State University's (MSU's) combined health service psychology (CHSP) programs are evaluated by their program faculty at the end of each academic year during the spring semester. This handbook is intended to inform students as to the purpose of these evaluations, the nature of the evaluation process, and the evaluation criteria used.

#### Purpose

The primary purpose of the student evaluation process is to provide a mechanism through which students can be made aware of their progress as judged by their program faculty and to utilize a process of self-evaluation that is mentored by the program faculty. Through this mechanism, satisfactory progress is noted, performance exceeding satisfactory progress is commended, and concerns regarding less than satisfactory performance are identified in order to promote remedial efforts. In addition, the evaluation process is intended to ensure that all program faculty are informed as to the progress of all students in the program.

#### Process

The annual evaluation process consists of two evaluation components: (1) completion of the Annual Student Evaluation Summary Form and (2) completion of the Personal Characteristics Review **Form.** During the spring semester, the student is required to conduct a self-evaluation of his/her own progress by completing and submitting the student evaluation forms (see Appendix) along with a current curriculum vitae to their major advisor. The program faculty meet to discuss and evaluate the progress of each student with special emphasis on each student's performance subsequent to the previous evaluation. One faculty member, student's major advisor or designated faculty is assigned responsibility for collecting information relative to each student's performance, sharing this information with the other faculty, and recommending a rating for each category of evaluation. Comments and information are solicited from all faculty and a consensus is reached as to the rating to be assigned to each evaluation category, an overall assessment of progress, and any specific evaluative comments to be conveyed to the student. After all students have been evaluated, each student has a conference with the CHSP core faculty to inform the student of the results of the evaluation, solicit the student's input regarding the evaluation results, and allow the student to present their self evaluation and receive the faculty's feedback. The student's signature is obtained to document that the evaluation information has been shared with the student and the signed evaluation forms are placed in the student's departmental file. Any student disagreeing with the evaluation results can appeal the evaluation in person or in writing (see procedures for due process in the CHSP Graduate Student Handbook and the university policy on student retention and dismissal).

#### Timeframe

The information used for the annual evaluation will be collected from April 1<sup>st</sup> of the previous year or date of enrollment until March 30<sup>th</sup> for the academic calendar year.

#### Sources of Information

Information used during discussion of each student's progress is obtained from a review of the student's departmental file, input from the program faculty, and information submitted by the student. It is the responsibility of each student to **ensure that required documentation forms** (See Appendix) are **submitted prior to the faculty deliberations.** In the event that a student does not submit documentation, the faculty will complete the review on available information and note the student's errant behavior in the annual evaluation with remediation as warranted.

#### **Annual Student Evaluation Summary Form**

Students are evaluated using the Annual Student Evaluation Summary Form (See Appendix) described below. This form is intended to provide students with faculty feedback regarding expectations for progress toward their professional development and program requirements.

**Evaluation Categories.** Student progress is evaluated and rated in three areas: (a) *Academic Progress*, (b) *Clinical and Interpersonal Skills*, and (c) *Professional Development*. Each evaluation category comprises for two or more subcategory areas:

- Academic Progress, comprised of:
  - o Classroom Performance performance in content and related courses,
  - Program Involvement and Capstone Requirement- timely progress towards completion of program requirements (e.g., engagement in leadership activities, progress towards capstone project, mentoring of and collaboration with colleagues).
- Clinical and Interpersonal Skills, comprised of:
  - <u>Practitioner Performance</u> field-based performance associated with practica assignments and other applied assignments.
  - o <u>Professional Behavior</u> interpersonal behaviors/characteristics, work habits, and professional characteristics necessary for effective professional functioning
- *Professional Development*, comprised of:
  - <u>Professional Involvement</u> membership in professional associations is expected; however, professional competencies include involvement in opportunities (i.e., research and applied experience) beyond those offered in the training program (may include self- or faculty-initiated opportunities, but self-initiation is given special consideration), and
  - o <u>Independent/Collaborative Research</u> participation in independent or collaborative research activities beyond expected course requirements or capstone project.

In addition to individual ratings in each of these areas and categories, an overall *Summary Progress* rating is assigned.

**Alignment with Professional Goals and Standards.** The CHSP program prepares graduate students to obtain knowledge and skills across nine areas :

- 1. Research
- 2. Ethical & Legal Standards
- 3. Individual & Culture Diversity
- 4. Professional values, attitudes, & behaviors
- 5. Communication & Interpersonal Skills
- 6. Assessment
- 7. Intervention
- 8. Supervision
- 9. Consultation & Interprofessional/Interdisciplinary Skills

Rating Scheme. A 5-point Likert scale is used to rate student performance in each area and category and to rate overall progress. The scaled ratings are: (a) Well Above Expectations (WAE), (b) Above Expectations (AE), (c) Expected (E), (d) Below Expectations (BE), and (e) Well Below Expectations (WBE). A description of the specific performance elements considered in each evaluation category and the criteria leading to each rating for students at different points in their program are provided at the end of this handbook.

The meaning attached to the various scaled ratings by the faculty may differ from that assumed by students and deserves some clarification. Students are often tempted to relate the rating scale to the 5-point (A to F) academic grading scale with which they are familiar. That is an incorrect interpretation of the meaning attached to these ratings by the faculty.

WAE ratings will be infrequently awarded and <u>should not</u> be viewed as equivalent to a course grade of A. Ratings of WAE are intended to recognize *exceptional* performance. Although students are encouraged to strive for WAE ratings, failure to achieve such ratings should not be surprising or disappointing. Students receiving frequent ratings of WAE are viewed as having the potential for achieving national recognition as outstanding professional psychologists.

A rating of AE is roughly equivalent to a grade of A. Ratings of AE are intended to recognize performance that exceeds that of good students. Students receiving frequent AE ratings are viewed as having potential for leadership roles as psychologists.

A rating of E, the mid-point of the evaluation rating scale, represents performance roughly equivalent to a course grade of B. Students receiving ratings of E are considered to be making good progress in the program, are expected to complete their program requirements in a timely fashion, and are expected to be viewed positively as representatives of our program following their graduation. In short, we expect all of our students to be good students and good psychologists and an E rating reflects good student performance.

A rating of BE is roughly equivalent to a course grade of B- or lower. Ratings of BE are intended to identify performance deficiencies that need attention and remediation. Students receiving frequent BE ratings would still be expected to complete the program but would not be likely to receive strong recommendations for internship placement or post-graduate employment. Additionally, modification to applied experiences is likely to be appropriate (e.g., limited or highly supervised practica).

A rating of WBE is roughly equivalent to a course grade of C or lower. Ratings of WBE indicate *serious* performance deficiencies and indicate that the faculty have reservations about the student's potential for program completion. Students receiving frequent WBE ratings will be encouraged to pursue other training options and will be at-risk for probation or dismissal.

Any student receiving a rating of BE or WBE within any area (i.e., academic progress, clinical and interpersonal skills, and professional development) will be provided remediation.

Please refer to pages 7-12 of this handbook for detailed descriptions of the expected behaviors across each evaluation areas.

# **Academic Progress**

#### Classroom Performance

**WAE:** All Expected Behaviors <u>and</u> Evidence of 2 or more Positive Factors.

**AE:** All Expected Behaviors and Evidence of 1 Positive Factor.

**E:** Satisfactory performance of all Expected Behaviors

**BE:** Any negative factor

**WBE:** Two or more negative factors

#### **Expected Behaviors**

Regular and punctual class attendance.

Active class participation.

Course grades of B or better.

#### **Positive Factors**

Unsolicited report from any teaching Faculty of positive classroom performance.

Report from any Program Faculty of positive classroom performance.

Invited teaching or guest lecture (undergraduate and graduate courses only) from Program Faculty or any other teaching Faculty.

*Note:* Workshops/Trainings should be listed under Section 3: Professional Development.

#### **Negative Factors**

Problematic performance in any area of Expected Behavior.

Report from any Program Faculty of problematic Classroom Performance.

Unsolicited report from any Faculty with teaching responsibilities of problematic Classroom Performance.

Grades of a C (Note: Student cannot obtain a grade of C in more than two classes and a grade of C must be remediated).

Obtaining a course grade of D or F.

#### **Academic Progress**

#### Program Involvement and Research Requirement

**WAE:** Early completion of 2 or more requirements

**AE:** Early completion of 1 requirement

**E:** All requirements completed on time

**BE:** Problematic performance in 1 requirement

**WBE:** Late completion of 2 or more requirements

#### **Program Involvement Expected Behaviors**

Attendance at program sponsored learning opportunities (e.g., training, research, leadership); attendance at colloquia, applicant interviews, and special occasions (e.g., faculty search)

Assistance in attainment of the program's goals

Contribution to cohesiveness of cohort and program

#### **Research Requirement Expected Behaviors**

Presentation at a local/state level conference – 1<sup>st</sup> year (must be present at conference)

Presentation at a regional/national or international conference  $-2^{nd}/3^{rd}$  year (must be present at conference).

Successful defense of capstone project.

\*These expected behaviors are expressed in reference to timelines; not frequency. The frequency of research requirements is evaluated in the Section 3: Professional Development.

#### **Positive Factors**

Active leadership in the coordination of program activities.

Independent development of training activities for the program.

Early completion of research requirement.

Multiple conference presentations.

#### **Negative Factors**

Frequent and/or unexcused absences for program learning activities.

Late completion in meeting research requirement.

#### **Clinical and Interpersonal Skills**

**Practitioner Performance** 

**WAE:** All Expected Behaviors <u>and</u> Evidence of 2 or more Positive Factors

**AE:** All Expected Behaviors and Evidence of 1 Positive Factor

**E:** Satisfactory performance of <u>all</u> Expected Behaviors

**BE:** Problematic performance in 1 area of Expected Behaviors

**WBE:** Problematic performance in 2 or more areas of Expected Behaviors

#### **Expected Behaviors**

Regular attendance at team supervision meetings.

Active participation in team discussions.

Timely completion of written documents (e.g., soap notes, test reports, treatment summaries) and all assignments.

Completion of contact hour requirement documents through logs.

Positive response to supervision.

Satisfactory attention to the components of the behavioral problem-solving model.

Performance of assessment, intervention, and consultation activities and skills appropriate to developmental level in the program.

#### **Positive Factors**

Active leadership on clinical assignments.

Frequent initiative.

Unsolicited report from any supervisor (i.e., university, on-site) of positive clinical performance.

Performance of assessment, intervention, and consultation activities and skills beyond developmental level in the program.

#### **Negative Factors**

Difficulty meeting deadlines.

Difficulty in providing ongoing communication with clinical site and/or supervisors.

Unsolicited report from any supervisor (i.e., university, on-site) of negative clinical performance.

Frequent and/or unaddressed errors in assessment, intervention, and consultation activities and skills beyond developmental level in the program.

*Note: All students must complete the Clinical and Interpersonal Form.* 

#### **Clinical and Interpersonal Skills**

Professional Behavior

**WAE:** No Problematic ratings, 6-8 Exemplary ratings

**AE:** No Problematic ratings, 2-5 Exemplary ratings

**E:** No Problematic ratings, 0-1 Exemplary rating

**BE:** 1-2 Problematic ratings

**WBE:** 3 or more Problematic ratings

The areas used in evaluating Professional Behavior, adapted from the guidance from accrediting bodies including APA and NASP are (a) Communication Skills, (b) Effective Interpersonal Relations, (c) Ethical Responsibility, (d) Flexibility, (e) Initiative, (f) Dependability, (g) Personal Stability, and (h) Respect for Human Diversity. Each area is rated as Exemplary, Satisfactory, or Problematic.

#### **Expected Behaviors**

Regular communication with supervisors.

Effective and collaborative engagement with team, cohort, other students and professionals.

Engage and follow-through with clinical/research responsibilities.

Adhere to schedules and timelines as agreed upon.

Satisfactory attention to the components of the behavioral problem-solving model within clinical and research activities.

Satisfactory attention to the components of the behavioral problem-solving model.

Timely completion of assessment, intervention, and consultation activities appropriate to developmental level in the program.

Ability to recognize and engage in self-care when necessary.

Engage in behaviors that show respect for individual and cultural differences of others.

#### **Positive Factors**

Active leadership.

Frequent initiative.

Evidence of the ability to meet challenges beyond developmental expectations.

#### **Negative Factors**

Missed deadlines/meetings.

Difficulty with communication with clinical site and/or supervisors. Inability to adjust to changes in role, responsibility, or clinical demands.

Rigidity in approach to problem-solving.

Inability to effectively recognize and resolve ethical dilemmas at a developmentally appropriate level.

Evidence of insensitivity to individual and/or cultural differences of others.

Inability to resolve interpersonal differences with others.

Note: All students must complete the Professional Behavior Rating Form.

#### **Professional Development**

Professional Involvement

**WAE:** Expected Behavior and Evidence of 2 or more additional Positive Factors

**AE:** Expected Behavior and Evidence of 1 additional Positive Factor

**E:** Presence of expected behaviors

**BE:** Absence of 1 Expected Behavior

**WBE:** Absence of 2 or more Expected Behaviors

#### **Expected Behaviors**

<u>All Students</u>: Membership in APA and 1 additional professional association, attendance at 1 professional meeting, and attendance at all program and departmental presentations/colloquiums.

1<sup>st</sup> Year: Expected Behaviors.

2<sup>nd</sup> Year: Expected Behaviors and 1 Positive Factor.

3<sup>rd</sup> Year: Expected Behaviors and 2 Positive Factors.

#### **Positive Factors**

Attendance at and/or Membership with additional professional organizations.

Leadership role in a professional organization.

Participation in one or more project (independent or collaborative) presentations.

Participation in one or more project (independent or collaborative) publications.

Pursuit of additional training opportunities (e.g., workshops).

Professional service to community and professional organizations.

#### **Negative Factors**

Lack of attendance at professional meetings and/or membership in additional professional organizations.

Lack of participation in professional projects.

Lack of evidence of engagement in professional development.

Lack of evidence of service to organizations.

Note: All students must complete the Professional Development Record Form and attach necessary documentation for membership, training certificates, letters of acceptance/participation, etc.

#### **Professional Development**

Independent/Collaborative Research

**WAE:** Expected Behavior and Evidence of 2 or more additional Positive Factors

**AE:** Expected Behavior and Evidence of 1 additional Positive Factor

**E:** Cooperative assistance with peer and faculty research projects

**BE:** No evidence of assistance with peer or faculty research projects

**WBE:** Report of unprofessional behavior related to collaboration

#### **Expected Behavior**

All students are expected to take advantage of as many opportunities as possible to assist other students and faculty in their research efforts. This may include participating on faculty led research teams, assisting with data collection for data-based projects and conducting literature reviews.

#### **Positive Factors**

Major involvement in more than 1 Independent research project.

Major involvement in more than 2 Collaborative research projects.

\*Major involvement includes active involvement in developing research design, preparing manuscript for publication, coding data, creating instruments/assessment materials, and performing data/statistical analysis.

#### **Negative Factors**

Lack of involvement in faculty led or supervised-student research activities.

Supervisor report of frequent lack of follow through or tardiness on projects/activities.

Unprofessional behavior or carelessness when engaging in collaborative or independent research projects/activities.

Involvement with in-service training and/or special intervention efforts (e.g., social skills groups) will normally represent either Professional Development or Practitioner Performance activities.

All students must complete the Independent/Collaborative Research Record Form.

#### **Personal Characteristics Review Form**

In addition to reviewing student's professional performance, students' personal characteristics related to his/her professionalism will be evaluated using the *Personal Characteristics Review Form* (PCRF). Each student's professional performance is rated on a 5-point scale, "N" indicating no opportunity of observe, "0" indicating does not meet criteria for program level, "1" indicating meets criteria only minimally or inconsistently for program level, "2" indicating meets criteria consistently at program level, and "3" indicating exceeds criteria consistently at program level. All students will receive feedback after any formal evaluation by the faculty.

If a student is not making satisfactory progress as evidenced by their grades and/or less than average evaluations by the department faculty, at minimum, the faculty advisor will meet with the student to discuss the evaluation. The Division Head may choose to meet with the student and the faculty advisor, and/or to initiate the procedures described below in the Student Retention Procedures.

On rare occasions, departmental faculty members become concerned about a student's suitability for entry into the professions represented by the programs in the department, even though the student may be evidencing satisfactory performance in academic course work. For example, a student's professional integrity, skills level, or professional development is rated on the PCRF scale as 1 or below. Therefore, departmental faculty have adopted the policy and procedures outlined below and in the "Student Retention/Dismissal Procedures" in order to fulfill the departments' professional responsibility and protect the rights of students.

<u>Examples of behaviors that may be evidence of professional impairment include the following.</u> This list contains examples, and is not intended to be exhaustive:

- violation of professional standards of ethical codes;
- inability or unwillingness to acquire or manifest professional skills at an acceptable level of competency;
- behaviors that can reasonably be predictive of poor future professional functioning, such as extensive lateness in client record-keeping or poor compliance with supervisory requirements; and,
- interpersonal behaviors and interpersonal functioning that impair one's professional functioning, inability to exercise sound clinical judgment, poor interpersonal skills, and pervasive interpersonal problems.

<u>Possible Actions to follow manifestations of professional impairment may include the following.</u>
This list contains possible examples and is not intended to be exhaustive.

- a formal reprimand
- an unsatisfactory grade in a skills-based course with the requirement that the course be repeated
- reduced practicum caseload
- personal appropriate therapy
- leave of absence
- required additional practicum or course work
- increased supervision (e.g., more frequent supervision, more than one supervisor, more extensive use of video or audiotapes)

- formal probation
- encouragement to withdraw from the program
- formal dismissal from the program

#### **Overall Assessment of Trainee's Current Level of Competence**

Please provide a brief narrative summary of your overall impression of this trainee's current level of competence. In your narrative, please be sure to address the following questions:

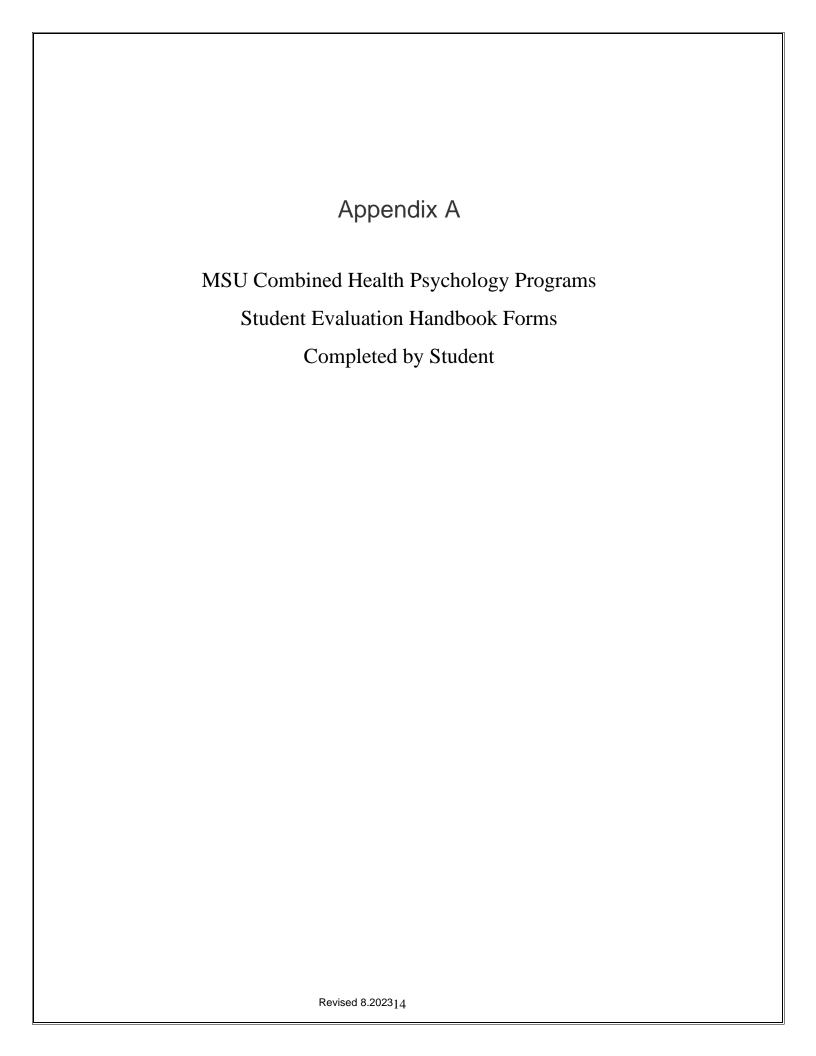

- What are the trainee's particular strengths and weaknesses?
- Do you believe that the trainee has reached the level of competence expected by the program at this point in training?
- If applicable, is the trainee ready to move to the next level of training, or independent practice?

#### **Competency Benchmarks in Professional Psychology Rating Form**

In addition to reviewing students on an annual basis, students' competencies related to professional health service psychology will also be evaluated prior to their initial enrollment in a practicum and prior to enrollment in their internship. These competencies will be evaluated using the *Competency Benchmarks in Professional Psychology Rating Form*. Each student's professional performance is rated on a 5-point scale, "NO" indicating no opportunity of observe, "0" indicating does never or rarely, "1" indicating sometimes, "2" indicating often, and "3" indicating almost always, and "4" indicating always meet criteria consistently at their appropriate level. If a student receives an average rating below "2" in any competency area, then he/she will receive remediation within than identified competency area. If a student receives a rating below "2" in three or more areas, then he/she will be considered for dismissal from the program.

#### Acknowledgements

The development of this handbook is a collaborative effort by the faculty members of the CHSP and School Psychology programs and feedback provided by the students. Materials used include Division 16 benchmarks. In addition, the faculty wish to thank the APA and NASP Approval Boards for providing examples and feedback through the review and accreditation process.

#### HEALTH SERVICE PSYCHOLOGY INFORMED CONSENT AGREEMENT

The course content and experiential activities involved in the Health Service Psychology programs offered by the Division of Education are designed to afford students the opportunity to advance their personal, intellectual, and professional development and functioning. Through the program of study, you will be given feedback concerning your personal, academic, and professional strengths, weaknesses, and performance. This feedback will come from faculty, supervisors, peers, and clients. You will be expected to deal with this feedback in a mature and professional manner.

The expectations of the Division's curricula are that you will explore and recognize the effect that your personal beliefs, issues, emotions, and behaviors have your ability to function as a counseling or psychology professional. The various "techniques" or "skills" courses will require that you develop and demonstrate your professional skills as you work with classmates in role-play situations and with clients in actual sessions. You will be asked to examine your behaviors, beliefs, and emotions in relation to your professional activities and experiences on an ongoing basis.

The faculty members have a responsibility to dismiss students who are unable to render competent service due to academic or personal limitations. They also recognize their obligation to assist students in obtaining remedial assistance as needed, to consult with colleagues and document their decision to refer students for assistance or to request that students be dismissed from the program, and to assure that students have adequate recourse to address decisions made. If in the professional judgment of a faculty member, a student's behavior is deemed substandard, unethical, illegal, and/or professionally unbecoming at any time during the course of training (including course work, practica, and internships), a faculty review committee will be called to review the performance and behavior of the student and to make recommendations for remediation to the Division Head.

#### **Evaluation Criteria**

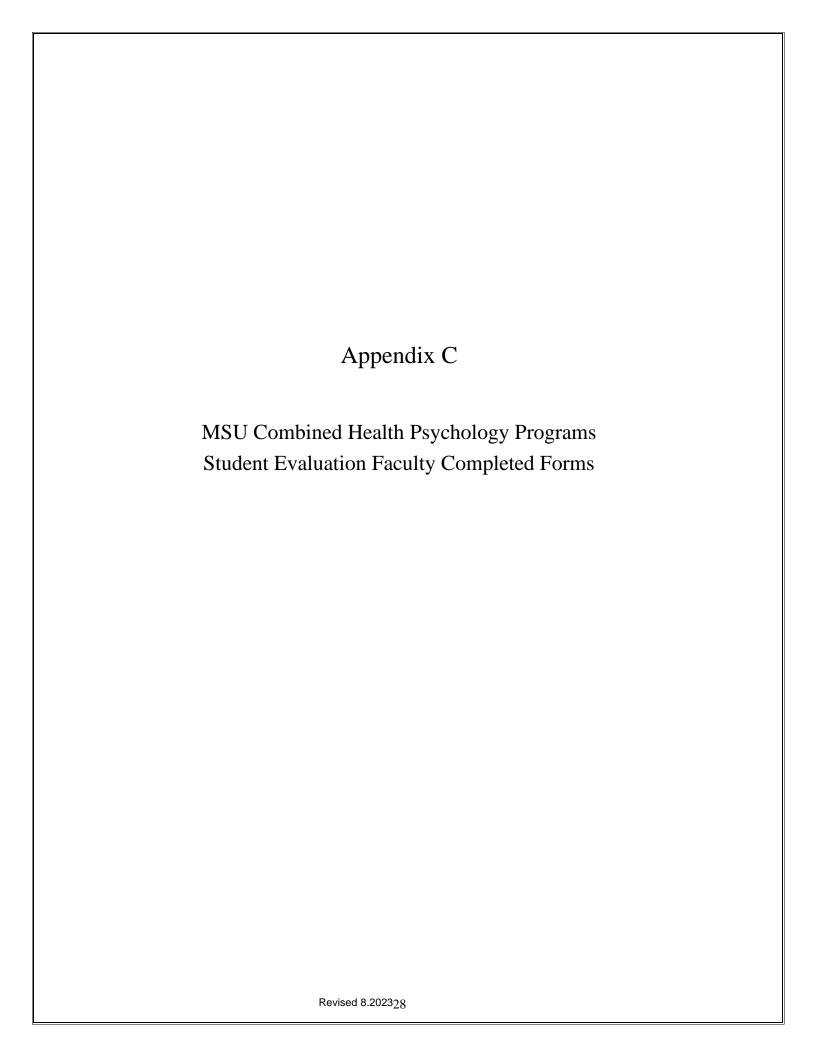

- N No opportunity to observe
- 0 Does not meet criteria for program level
- 1 Meets criteria only minimally or inconsistently for program level
- 2 Meets criteria consistently at program level
- 3 Exceeds criteria consistently at program level

Professional Responsibility	N	0	1	2	3
1. The student relates to peers, professors, and others in an appropriate professional manner.					
2. The student does not exploit or mislead other people during or after professional relationships.					
3. The student applies legal and ethical standards during the training program.					
Competence	N	0	1	2	3
1. The student takes responsibility for compensating for her/his deficiencies.					
2. The student provides only those services and applies only those techniques for which she/he is qualified by education, training, or experience.					
3. The student demonstrates basic cognitive skills and appropriate affect in response to clients.					
Maturity	N	0	1	2	3
1. The student demonstrates appropriate self-control (such as anger control, impulse control) in interpersonal relationships with faculty, peers, and clients.					
2. The student demonstrates honesty and fairness both personally and professionally.					
3. The student is aware of her/his own belief systems, values, needs, and limitations do not actively affect his/her professional work					
4. The student demonstrates the ability to receive, integrate and utilize feedback from peers, teachers, and supervisors.					

-continued on next page-

Iı	ntegrity	N	0	1	2	3
1.	The student does not make statements that are false, misleading, or deceptive.					
2.	The student respects the fundamental rights, dignity, and worth of all people.					
3.	The student respects the rights of individuals to privacy, confidentiality, and choices regarding self-determination.					
4.	The student respects cultural, individual, and role differences, including those due to age, gender, race, ethnicity, national origin, religion, sexual orientation, physical ability/disability, language, and socioeconomic status.					
5.	The student behaves in accordance with the program's accepted code(s) of ethics/standards of practice.

Student:	Current Academic Year:

#### **Evaluation Criteria**

- N No opportunity to observe
- 0 Does not meet criteria for program level
- 1 Meets criteria only minimally or inconsistently for program level

Faculty:

- 2 Meets criteria consistently at program level
- 3 Exceeds criteria consistently at program level

Professional Responsibility	N	0	1	2	3
1. The student relates to peers, professors, and others in an appropriate professional manner.					
2. The student does not exploit or mislead other people during or after professional relationships.					
3. The student applies legal and ethical standards during the training program.					
Competence	N	0	1	2	3
1 .The student takes responsibility for compensating for her/his deficiencies.					
2. The student provides only those services and applies only those techniques for which she/he is qualified by education, training, or experience.					
3. The student demonstrates basic cognitive skills and appropriate affect in response to clients.					
Maturity	N	0	1	2	3
1. The student demonstrates appropriate self-control (such as anger control, impulse control) in interpersonal relationships with faculty, peers, and clients.					
2. The student demonstrates honesty and fairness both personally and professionally.					
3. The student is aware of her/his own belief systems, values, needs, and limitations do not actively affect his/her professional work					
4. The student demonstrates the ability to receive, integrate and utilize feedback from peers, teachers, and supervisors.					

-continued on next page-

Iı	ntegrity	N	0	1	2	3
1.	The student does not make statements that are false, misleading, or deceptive.					
2.	The student respects the fundamental rights, dignity, and worth of all people.					
3.	The student respects the rights of individuals to privacy, confidentiality, and choices regarding self-determination.					
4.	The student respects cultural, individual, and role differences, including those due to age, gender, race, ethnicity, national origin, religion, sexual orientation, physical ability/disability, language, and socioeconomic status.					
5.	The student behaves in accordance with the program's accepted code(s) of ethics/standards of practice.
